5ADAY(ファイブアデイ)は、食べた野菜の量を数える、便利な目安 元気な毎日を過ごすための合言葉!です。1日(a day)に5皿分の野菜を食べよう、という意味を表す名前です。

甘くて栄養満点!冬野菜のひみつ

~地表、地中、水中で育つ冬野菜の仲間たち~

冬野菜の特徴は、寒さで凍ることがないよう、細胞に糖を蓄積するため、糖度の高い野菜が多いこと。食べたときに、冬野菜は甘くておいしいと感じるのはこのためです。また、ビタミンやカロテンなどの栄養価を多く含む野菜は、免疫力を高め、風邪の予防にも効果があるといわれています。

こんな環境でうっています。

<u>(__</u>

Sweet and nutritious! The secrets of winter vegetables ~Winter vegetables that grow above ground, underground, and underwater~

Chicken and root vegetable

soy sauce soup

A characteristic of winter vegetables is that many of them have a high sugar content, as they accumulate sugar in their cells to prevent freezing in the cold. This is why winter vegetables taste sweet and delicious when eaten. Additionally, vegetables that are rich in nutrients such as vitamins and carotene are said to boost immunity and help prevent colds.

lotus root

This underground stem has a crunchy and fluffy texture and is rich in dietary fiber and vitamin C.

🅎 spinach

Rich in iron and betacarotene, it is known as the "king of green and yellow vegetables," helping to prevent anemia and maintain immunity.

Japanese radish

The roots are rich in the digestive enzyme amylase, and the leaves are rich in beta-carotene. They are great for everything from oden to sashimi garnishes.

It is a representative

green and yellow vegetable that is very rich in beta-carotene and characterized by its bright orange color.

Carrots

Broccoli

This nutritious flower bud vegetable contains more vitamin C than lemons and notable ingredients such as

Turnip

It is a versatile vegetable in which both the roots and leaves can be eaten, contains diastase which aids digestion, and is characterized by its gentle sweetness.

🐠 Napa cabbage

It is 95% water and low in calories, making it a main ingredient in hot pot dishes. It becomes sweeter when heated and also contains vitamin C

Burdock

It is very rich in dietary fiber such as inulin, and is a "soil nutrient" that regulates the intestinal environment.

Chrysanthemum greens

It has a unique aroma and a slightly bitter taste. is rich in beta-carotene, and is an essential leafy vegetable, especially in hot pot dishes
